

Supplier Diversity Policy

At JD Norman Industries, we value building collaborative relationships with diverse businesses. Through this effort, we believe it will lead to growth for all, and impact the communities where we do business in a positive way.

We strive to foster a diverse supply base, as we believe supplier diversity provides additional creativity and resourcefulness to our business. We encourage our suppliers to adopt equivalent practices; so together, we provide a world class solution in terms of cost competitiveness, quality, delivery, and technology and customer service to our customers.
